

## TTH374, Townhouse in Torrox

**62.000 EUR**

### Property information:

Bedrooms:	3
W.C.:	1
Living Space:	88

This is one of our traditional townhouses in Spain, located in a charming and quiet street in the historic center of the beautiful town of Torrox, located a few meters from a free parking throughout the year and just 5 minutes walk from the main square where all services are located necessary for day to day needs. The property retains the stone walls with which the houses and roofs were formerly built with beautiful wooden beams reinforced with iron beams. It has two independent accesses one upstairs where we find a kitchen and three bedrooms. Going down a flight of stairs we find a living room with an open kitchen and a small toilet, here in the lower part there is another access to the house through the main entrance door. The house has the possibility of building an upper terrace where you could see beautiful views of the sea and the town. This house is a good opportunity for someone who is willing to invest in restoring it and turning it into a great house.

### Construction

Fireplace type: No
